## **Remote and Flexible Learning update:**

We have been notified this afternoon from DET that remote and flexible learning will continue at all year levels, in all schools under the current settings, until the end of this term.

Again we thank our families, teachers, ES staff and all support people for their combined efforts to help keep this going.

## **Webex way of working:**

For remote learning, this has become our face to face teaching tool— our new on-line classroom! It has been lovely to join these teaching sessions. Please support your child's participation and help maximise the learning opportunities for everyone. Teachers will be emailing revised expectations for the use of Webex to all families.

## **Paralympics:**

I hope everyone is enjoying the Paralympics, currently on in Tokyo. It is inspiring to see people persisting against all odds to achieve the magnificent results we're seeing on the medal tally. 54 medals so far! Go Australia!

## **Parent Opinion Survey reminder:**

If you received the email, with log in directions, please find some time to complete it for us. If you have any questions, please contact me. We value your feedback!

## **Indigenous Literacy Day:**

Today we celebrated Indigenous Literacy Day at school and remotely. This year's theme is Celebrating Stories and Language— and what better way for us to celebrate than by highlighting some wonderful work by our First Nations authors. Please watch for the reports in our newsletter.

## **Things to do at home:**

1. Board games are always a favourite: remember the fun in making your own Snakes and Ladders game or ruling up those rows of dots to make a Paddocks game?
2. What about a virtual pet parade using either a drawing or a photo of your pet— and email them to Miss Douglas for our school's Face Book page (*don't forget to get your pet's photo permission first!!*)
3. Check out this great website: <https://www.melbournefc.com.au>

Please remember to look after yourselves and just *Do Your Best!*

*All donations of pre-loved items welcome!*

# Maths

## 3/4 Kennedy Room 2

### Maths Games are Fun

Our class has been learning to multiply and divide, two very important operations. We practise learning our multiplication facts by playing games. One of the games that we have been playing is called 'The Product Games'. The aim of the game is to answer multiplication facts and get three in a row. This game uses a lot of strategy as you can choose a multiplication fact to block you opponent.

Another game we play is called 'Multiplication Squares' where you take turns to roll 2 dice and multiply the numbers. You then draw a line to join two dots on a square.

The aim of the game is to complete a square. The one with the most squares is the winner. This game is a bit like paddocks.

Playing games is fun.

Remember you can access Mathematics at home at [www.mathletics.com.au](http://www.mathletics.com.au) and Mathseeds at <https://mathseeds.com>

# Literacy

## 3/4 Kennedy Room 2

Our class has been reading and writing information texts this term. Information texts come in many forms such as explanations, biographies, reports, news articles, instructions and procedures. For this task we were asked to take a fairy-tale and write it from a reporters point of view and how it would be written for a newspaper. These news articles are by Kurt, Jordan and Audrey.

### The Fairytale Times

14c. CLEVER WEDNESDAY AUGUST 26, 2001 \$1.10

#### FROM POOR BOY TO RICH BOY

BY ALBERT WALLACE WOOD

Yesterday, Audrey aged 6, went to the soccer where Jack and his mother had an exciting game with. When all their old savings, Audrey discovered a long forgotten secret.

From several sources, Audrey discovered that Jack had some history with ghosts.

Jack's mother, Ms. Wood, said, "I was an angry wife. Jack when I found out he sold our beloved dog for only a few magic leaves I explained to each more from him. But, as our every grows, Jack did much more than what she expected. Apparently Jack actually had a great, great, great, ancestor that was a great, great, great, witch and he was a great, great, great, witch and he was a great, great, great, witch. He has a little girl named his name."

Eighty years Jack and his mother are discussing bits of their tales to several children, and in the future, are planning to stay with them. We wish Jack and his mother and great Jack, and his friends, to the best time we can meet with them.

148791 In the future, Jack and his mother are planning to stay with them.

### The Gingerbread Man

Bethany, at the age of 65 wanted to bake a gingerbread man for her husband but because they lives in Fairy-tale forest the gingerbread man came to life. He proceeding to tease its creators, a cow and the town's people.

After its rampage, he came to a stop at a lake. Soon after that he proceeded to cross the lake on top of a fox. After a minute the fox ate the ginger man. The fox was sent to jail for 5 years for attempted murder. Mr Fox claimed that the gingerbread man tasted sour anyway.

While running he screamed, run, run as fast as fast as you can, you can't catch me, I'm the gingerbread man!

### The Witchy Times

Guilty not guilty: Who is the real criminal?

Rosetta the child eating witch or Hansel and Gretel the scammers?

Last week Rosetta the witch was arrested at her home in Sally Pully drive. She was sent to jail for attempting to MURDER a 10 year old boy. Here's what she had to say, "They attempted to throw me in the fire! PAX, I was helping them they said they were starving so I gave them my best chocolates but they threw me in the fire! Here's Hansel's side after his UNUSUAL strange disappearance, "I believe the witch my sister! What she said about us Chucking her in the fire was not true she tried to put me in the fire! Rosetta the witch was sent to court the judge said there wasn't enough evidence to keep her in jail, so Rosetta had to do community service. Today Gretel returned now she is a suspect in the disappearance of 10 witches. Hansel has opened a bakery and Rosetta is planning on living in a witch only town. She said, "Keep away from horrid children, they're the real criminals!"

woof, woof, woof, I love dogs  
are better than horses + hogs.  
ave paws that are soft + furry.  
+ hogs have hooves that are scary.  
ome inside + have lots of cuddles.  
+ hogs stay outside, playing in puddle

## AT HOME LEARNING

I've had some wonderfully creative work sent my way in the last week and a half — zoom in for a closer look!

Music can be so beneficial right now, it can:

Relieve stress

Improve memory

Lift our mood

Inspire movement

Improve vocabulary

Allow us to express ourselves

This week I've had to remind myself of the reasons music is important to me and made the choice to actively listen and move to music to lift my mood. It made a big difference to a day when I was missing being at school.

I hope the work shown here brings a smile and inspires everyone to do something musical today. 😊

The Unknown

Welcome to the unknown  
paint is splashing  
Dole house are crashing  
Nobody knows where to go  
kids are screaming adult are pleading  
when is it time to go  
welcome to the unknown  
in the air  
hopefully we will see the desert plains
